DETAILED ACTION

Specification

1. The amendment filed 9-5-03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The paragraphs added to page 3, line 25 and page 5, line 24 are not considered to be supported by the disclosure. If applicants traverse this objection it is requested to point to specific parts of the disclosure that provide the support.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

2. The rejection of claims 19-36 under 35 USC 112 is withdrawn in view of applicants argument the oxide component comprises 40-60 wt% alumina with the remainder being other conventional oxide components.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 19-23,25-31,33-46 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Fitch et al (5,338,711), for reasons of record.

The experimental data set forth in the arguments is not persuasive in overcoming the rejection because it is not in declaration or affidavit form. It is noted that Fitch et al use bauxite as the alumina component therefor the amount of alumina in the refractory body would be lower. Note applicant's definition of bauxite.

Conclusion

5. In claim 35 it is suggested to correct the terminology "100°C, at about 120°C".
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
